Aug 2021 - Aug 2024

Anjuman Institute of Management and Computer Application

CGPA - 9.18 / 10

Class XII

Jun 2019 - May 2021

Govt Pre University College

Percentage - 90%

EXPERIENCE

Web Development Intern | EDUTAINER (PAT Technologies Pvt. Ltd.)

Feb 2026 - June 2026

- Built a responsive authentication module (Signup/Login) using HTML, CSS, and JavaScript, implementing client-side validation for email, username, and password with real-time error/success feedback.
- Developed a personal finance tracking web app with income/expense categorization, automatic balance calculation, and Local Storage-based persistence to retain data across sessions.
- Designed mobile-first, fully responsive UI components, applying core web development workflows, debugging practices, and MySQL fundamentals throughout assigned tasks.

PROJECTS

Expense Management System

Technologies: React.js, JavaScript, HTML, CSS

- Built a responsive personal finance management web application to track income, expenses, recurring bills, and monthly cash flow through an interactive dashboard.
- Implemented transaction and bill management features including expense categorization, automatic balance calculation, and real-time financial summaries.
- Designed a user-friendly, mobile-responsive interface with Local Storage-based data persistence, ensuring data retention across sessions.

Habit-Flow

Technologies: JavaScript, HTML, CSS

- Developed a responsive habit-tracking application featuring dynamic habit management, monthly progress monitoring, and real-time analytics through interactive dashboards.
- Implemented Local Storage-based data persistence, theme customization, and performance visualizations to improve user productivity and experience.

SKILLS

- Frontend : React.js, JavaScript, HTML5, CSS3, Tailwind CSS
- Languages : Java, Python, C, JavaScript
- Databases : MySQL, SQL
- Soft Skills : Communication, Teamwork, Time Management, Problem Solving, Adaptability

ADDITIONAL INFORMATION

- Languages:** English, Hindi, Kannada
- Certifications:** Full Stack Web Development - GeeksforGeeks
